HASSLE FREE HIRE™

K65
QUAD POD

Applications & Advantages

The quad pod is a high power mobile outdoor floodlighting solution specifically designed for a wide range of applications including:

- Construction
- Hire
- Rail
- Utilities
- Outdoor Events

Flexible product configurations to cover a wide range of applications:

- LED configurations - high quality light output and minimum operating costs

LED
Light Heads

- LED technology
- 160W power per luminaire
- 17,600 lumens per luminaire
- Cool white colour temperature

All models can be powered by mains or generator

Single person deployment in under 3 minutes

Easy and compact to stow
and transport

Easy to manoeuvre

Stable base throughout
setup

Features & Benefits

- **Unique parallel mast design**
Low centre of gravity for ease of handling without needing to remove the light heads
- **Integrated manual winch with automatic brake**
Allows safe raising / lowering of the mast
- **Individual, fully adjustable light heads**
Allows light to be adjusted to suit any application including a 360° light pattern
- **Mains and generator powered options**
For use with existing power supply equipment
- **Hard wearing powder coated paint finish**
Suitable for use in outdoor environments
- **Low pressure wheel / tyre option**
Minimizes ground contact pressure and protects the playing surface
- **Automatic stowage lock**
Prevents mast movement in storage or transport
- **Linking electrical connections**
Allows lighting towers to be linked together on one power supply
- **Automatic mast raise safety interlock**
Prevents chance of mast lowering unless correct operation used
- **RCD electrical safety isolation**
Instant power off should an electrical problem occur
- **Independently adjustable legs**
Copes with uneven surface
- **Large low pressure footprint**
Gives non-marking safe secure base
- **Built in level gauge**
Ensures vertical mast raise
- **Operator level luminaire on/off switch**
No need to lower mast to turn luminaires on and off
